

## WHAT BDMA STUDENTS HAVE TO SAY:

*'We can express the way we want to make something – we have creative independence and freedom'*

*'I was surprised at how well I did in the presentations – it's good because in media you have to prove yourself'.*

*'I love meeting new people and finding out about the BDMA partner companies.'*

*'The most important thing that I learnt is that even if you start out as a runner for a company, you can still go far and do things like producing, interviewing and camera work.'*

*'I gained a bit more confidence when doing an interview.'*

*'I learned about the things that she enjoy doing while working for the company and what it's like working as a producer. To always follow what you enjoy doing and you will become very successful.'*
